Wayne Dalton™

MODEL 8670

CARRIAGE HOUSE STEEL

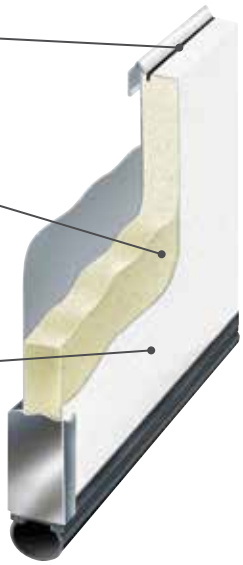
Westfield panel, Walnut finish, Plain Window Arch

DOOR FEATURES

Effective Joint Seals
Snug fitting tongue-and-groove section joints reduce wind and weather from entering the garage.

Foamed-In-Place Polyurethane Insulation Provides thermal efficiency with a U-factor* of 0.16 and an R-value** of 10 helps block street noise and makes the door operate more quietly.

Detailed Construction
Three-section styling on 7' high doors gives a custom design look. Our 8' high doors have four-section styling. All panels have finished interiors and low-profile hinges.



TorqueMaster® Plus Counterbalance System
Contains springs safely inside a steel tube to prevent accidental release of tension that could cause injury and features anti-drop safety technology.

High Cycle Spring Option
Choose a 25,000 cycle spring for more than twice the life of a standard torsion spring.

Limited Lifetime Warranty

*U-factor is independently tested and verified per ANSI/DASMA 105 using solid doors and specific product sizes.
**Wayne Dalton uses a calculated door section R-value for our insulated doors.

THERMAL PERFORMANCE

DASMA Door & Access Systems Manufacturers Association International
THERMAL PERFORMANCE VERIFICATION PROGRAM
www.dasma.com/thermal

Wayne Dalton participates in the DASMA Thermal Performance Verification Program. The program verifies the thermal performance of sectional garage doors. The lower the U-factor rating, the better the thermal performance.

Symbol indicates verified U-factor rating in accordance with the DASMA Thermal Performance Verification Program.
